5 Procedures

5.1 Start phpMyAdmin

5.1.1 Setup and configuration

5.1.1.1 Installation

- Install the free and open-source Apache HTTP server and MariaDB databse server from https://httpd.apache.org and https://mariadb.org, respectively, or install the free and open-source cross-platform web server solution stack package XAMPP from https://www.apachefriends.org (recommended).
- Configure the services according to your local requirements.

5.1.1.2 Start the services from the XAMPP Control Panel

- Start the XAMPP Control Panel in Administrator mode.
- **Start** the Apache server module from the control panel.
- **Start** the MySQL server module from the control panel.
- Select **Admin** of the MySQL server module.
